

```
import 'package:flutter/material.dart';

void main() {
  runApp(
    MaterialApp(
      title: 'Hellow World',
      home: Scaffold(
        body: Center(
          child: Text('Hellow World'),
        ) // center
      ), // Scaffold
    ) // MeterialApp
  );
}
```
